SUMMARY

Experienced **C#/.NET** Developer with **6+ years** in designing and implementing robust and scalable backend solutions using **.NET Core Web API**, **Angular**, **Fast API**, **Selenium** and cloud platforms. Passionate about learning **OOP Principles** like **SOLID**, **software architecture**, and **Agile** practices. Seeking to leverage my technical expertise in a collaborative team to deliver high-impact software solutions.

PROFESSIONAL EXPERIENCE

Software Engineer | Dec 2024 – Jun 2025

Optimizely

- Assisted existing customers to migrate to latest version of **Optimizely CMS** from older versions using **ASP.NET Core based MVC**.

Software Engineer | Mar 2024 – Sep 2024

PriyoShop

- Led a team of 4 to architect and develop a SAAS based POS solution. It was developed from scratch in **.NET Core Web API** & **Angular** and currently serves 7+ restaurants every day.

Software Engineer | May 2023 – Feb 2024

SEBPO

- Led a team of 4 to build a Web Scraping Framework to scrape open-source data from websites.
- Participated in CMMI appraisal as Project Manager.

Software Engineer | May 2022 – Mar 2023

Brain Station -23

- Contributed to the development of an investigation management system for DRE department of Texas Police, used daily by officers under DRE department to manage investigations and file cases. The application was developed from scratch using **ASP.NET MVC, Kendo UI with jQuery & Bootstrap**.

Jr. Software Engineer | Oct 2019 – Apr 2022

Era Infotech

- Developed a web automation project using **Python FastAPI**, **Selenium**, and **Angular**. The software logs into various remittance portals with a headless browser, validates sender and receiver details using AI, and approves or denies disbursements. It processes about 30% of all remittances handled by Bank Asia daily nationwide. Received acknowledgement for exceptional contribution in this project.
- Contributed to the development of an investigation management system as a part of a team of 5, for over 2 years, for a Bangladesh Army department, operates under the Prime Minister's office. My work involved **ASP.NET Standard MVC, Bootstrap, jQuery, and Oracle**, but I cannot share specific details due to a non-disclosure agreement.

Jr. Game Developer | Feb 2019 – Sep 2019

B2M Games

- Developed multiple solo android hyper casual **Unity 3d** games using **C#**.

EDUCATION

American International University – Bangladesh | Jan 2014 – Dec 2018
Bachelor of Science (BSc), Computer Science & Engineering • GPA: 3.21

Uttara High School & College

HSC	2013	GPA: 4.00
HSC	2011	GPA: 4.94

IELTS (Candidate 023438) Date – 08-Jan-2022

- Listening – 7.0
- Writing – 6.0
- Reading – 6.0
- Speaking – 7.5
- Overall – 6.5

SKILLS

Backend
- ASP.NET Standard MVC
- ASP.NET Core MVC & Web API
- Python Fast API

ORM
- Entity Framework
- Dapper
- Sql Alchemy

Frontend
- TypeScript
- Angular
- Bootstrap
- jQuery
- Kendo UI

Others
- Docker
- Git
- Microservices
